

TOTAL CONTROL OF KEYS, VEHICLES AND USERS

Who took what key
when—and where's
the car now?

Keyhound has
all the answers.

- › Instant management of keys, vehicles and staff
- › Identifying users and keeping them accountable
- › High-tech security and convenience
- › Identify and assign traffic offences
- › System expands as needed

INDUSTRY BREAKTHROUGH • IMMEDIATE BENEFITS

Designed to meet the specific demands of automotive dealerships, your **Keyhound** system solves critical security and efficiency problems, while helping eliminate expensive traffic fines.

Know who has
(and had) the keys

Know where every
vehicle is parked

Know who was
driving when

ABC123

Know where keys, vehicles
and trade plates are

Keyhound's many unique benefits include:

Easy touch-pad entry with fail-safe identification of users

Keys can be readily chosen or returned in under 30 seconds

Record pickup/drop-off, locate parked vehicles, track trade plates

Cabinet sizes to suit from 30 to 300 keys, wall-mounted + freestanding

Access and manage users/deployment via our app* or dashboard

High security cabinet is patented and proven

Keys can be transferred between users in-field

Key-boards are removable for outdoor convenience

Cabinets can be networked: between floors and buildings,
or even across numerous sites

* iphone-ready; Android version nearing release

G9 Cabinet shown:
100-300 key capacity
Actual stand height:
1,000mm

Keyhound System

- 1 High security cabinetry ensures keys are always secured
- 2 App technology makes access quick and easy for authorised users
- 3 Touchpad directory and record keeping
- 4 Dashboard interface for master control
- 5 Error-free, rapid removal and return of keys
- 6 Key-boards can be readily removed for in-field use

#1 Shepherd: 30 keys
#6 G9: 100-300 keys
